Summary

A highly motivated and passionate fullstack developer with foundational skills in front-end web development. Seeking an opportunity to grow in a dynamic team where I can apply my knowledge of **HTML, CSS, JavaScript, React, Tailwind CSS, Node js, Express js and MongoDB** to build responsive and user-friendly and server side or backend making it fullstack web applications. Eager to learn, adapt, and contribute to real-world projects.

Skills

- **HTML & CSS:** Solid understanding of semantic HTML and modern CSS techniques
- **JavaScript:** Proficient in writing clean, maintainable code for dynamic user interfaces
- **React.js:** Hands-on experience building reusable components and managing state
- **Tailwind CSS:** Building responsive, modern UIs with utility-first styling
- **Node.js:** Building server-side applications and RESTful APIs
- **Express.js:** Designing structured and scalable backend services
- **MongoDB:** Working with NoSQL databases and data modeling
- **Version Control:** Git & GitHub (commit, branch, merge)
- **Responsive Design:** Designing and testing across multiple screen sizes and devices
- **Microsoft Office Suite:** Word, Excel, PowerPoint, Outlook

Projects

School Management System

- Designed and developed a user-friendly school management system using HTML, Tailwind CSS, and React.
- Built interfaces for managing students, classes, attendance, and results.
- Focused on frontend design and interaction without backend/database integration.

Hotel Web Application

- Designed and built a full-stack hotel web application using **React** and **Tailwind CSS** for the frontend, with **Node.js**, **Express.js**, and **MongoDB** powering the backend.
- Implemented features for room listings, bookings, and customer data management.
- Created RESTful APIs to handle CRUD operations and ensure smooth communication between frontend and backend.
- Focused on responsive design, usability, and clean application structure.

Calculator App

- Created a functional calculator using HTML, CSS, and vanilla JavaScript.
- Implemented basic arithmetic operations and a clean, user-friendly UI. Applied DOM manipulation and event handling techniques.

HTML s CSS UI Projects (from Figma)

- Practiced replicating modern UI designs by downloading and implementing Figma templates.
- Strengthened layout, styling, and responsive design skills using pure HTML and CSS. Improved attention to design detail and pixel-perfect implementation.

Education

University Of Cape Coast

2023 - Present

Cape Coast, Ghana

BSc. Computer Science

Achievements

- Participated in online coding challenges.
- Completed online courses in Front-End Web Development on FreeCodeCamp, SoloLearn, W3Schools, and Udemy.
- Gained practical skills through mentorship from a tech icon.
